

Juan Ignacio Núñez

Full-Stack Developer | RPA & Low-Code Specialist

juaninun17@gmail.com | [LinkedIn](#) | [GitHub](#) | [Website](#) | Concordia, Argentina

Summary

Results-driven Full-Stack Developer with 1+ year of international experience at EY. Specialized in **TypeScript, React, and NestJS**, with a dual-technical degree background. Proven ability to deliver scalable solutions in Agile environments and communicate fluently across **English (C2), Spanish, and Portuguese**.

Work Experience

Freelance Web Developer – The Zeta Space (June 2025 – present)

- Designing custom **WordPress** and **Shopify** solutions for SMEs; managing full project lifecycles including SEO and hosting.
- Prompt engineering and AI output quality assurance.

FSO Technology Consultant – Ernst & Young (EY) (May 2022 – March 2023)

- Certified **Pega Systems Architect**; developed CRM features for Bradesco Saúde (Brazil) in a multinational Scrum environment.
- Coordinated cross-border dev/QA workflows through daily technical communication in English (C2), Portuguese, and Spanish.

Relevant Projects

OS-like Portfolio Website (November 2025 – present)

- **React-based** Windows-XP-inspired portfolio simulating an operating system with integrated browser, notepad, and music player via external APIs.

Inventory Management System (SME Focus) (April – June 2025)

- Desktop-first management tool using **TypeScript, Vue 3, Electron**, and **Pinia**. Integrated **exchange rate APIs** and utilized **lowdb** for local persistence; optimized with a "battery-saving mode" for commercial scalability.

Municipal Gym Management System (Sept 2021 – Dec 2024)

- Full-stack graduation project using **NestJS, Angular**, and **MySQL**. Implemented secure **JWT/Bcrypt** authentication and managed 5+ CRUD modules with multi-level authorization.

Skills

- **Languages:** JavaScript (ES6+), TypeScript, Java, Python, HTML5, CSS3/SASS.
- **Frameworks/Libraries:** React, Next.js, Angular, NestJS, Node.js, Vue 3, Tailwind CSS, Bootstrap 5.
- **RPA/Low-Code:** Pega Infinity (Certified), BluePrism, PowerAutomate, n8n, WordPress.
- **Tools/Databases:** Git/GitHub, MySQL, SQLite, Azure DevOps, Agile, REST APIs, AI/LLM Integration.

Education & Professional Credentials

- **Web Development Technician** – Universidad Nacional de Entre Ríos (2024)
- **Superior Programming Technician** – Universidad Tecnológica Nacional (2021)
- **Certified Pega System Architect 8.7** (Pegasystems, 2022)
- **Languages:** Spanish (Native), English (C2 - EF SET 80/100), Portuguese (B1), Japanese (A2)
